

### **Frequently Asked Questions for our Male Clients**

#### **Questions, and Behavior to Avoid During Your Male Waxing or Sugaring Appointment**

**Q. What if I get an erection while I am being waxed or sugared?**

A. It happens and you should not be embarrassed. Most men are concerned this will happen to them. The sugaring technique is a manual technique and it does require manipulation of your genitals. It is professional. There is nothing sexual about the experience and will feel more clinical. Our estheticians are trained and will not make a big deal when this occurs. However, this is not a pass for intentional erections that takes on a sexual context.

**Q. Can I email you questions about being waxed or sugared?**

A. Yes. Our company accepts emails for general questions regarding services and appointments. We can tell very quickly if a man is serious or if they are bored and simply playing games.

**Q. Will you apply any lotion or serum to my genitals after you wax or sugar it?**

A. No, we will not.

**Q. Will waxing or sugaring make my penis look larger?**

A. Some think it gives the “optical inch”. However, shaving or trimming with clippers at home would be a more affordable way to find out. If you would like to receive a Brazilian with hopes of looking “larger”, we are happy to provide the service. If you do not “look” larger afterwards we will not provide a refund.

**Q. I don't think my hair is long enough. I think the hair is too short. Can I email you a picture for you to tell me if it is?**

A. ABSOLUTELY NOT! If you send a picture of your genitals it will be seen as harassment and our company will report you to the Chamblee police department. If you have shaven in the last seven days, wait at least 10 days before scheduling.

**Q. Do you offer a release after you wax or sugar me?**

A. ABSOLUTELY NOT! Waxing and sugaring is a PROFESSIONAL service. Estheticians are willing to service waxing and sugaring to men, but all clients must act accordingly. The truth is, most men are wonderful clients. We acknowledge and counsel fellow hair removal professionals that these unfortunate experiences are a “once in a blue moon” encounter. We don’t allow one bad apple to spoil the bunch. Here is a list of inappropriate behaviors you should NEVER do.

- Do not ask for a happy ending.
- Do not wear a ring around your penis to maintain an erection.
- Do not bring lubrication to your appointment.
- Do not play with, tug on, or stroke your penis. If your Esthetician needs assistance with making your skin tight, she will ask you. If you decide to do this in my treatment room, it will be the conclusion of the service and I will leave the room.
- Do not address your waxing or sugaring professional with pet names such as “baby”, “sweetie”, “sweetheart”, “beautiful”, “princess” ... etc. You get the idea. Use our name please.
- Do not inquire of our relationship status or ask us on a date.
- You know if you are highly sensitive to touch. If you’ve had experiences with prematurely ejaculating while being waxed or sugared, perhaps remedy this prior to your appointment. Look, it is SO EASY and SO SIMPLE. Be RESPECTFUL. Please regard men’s waxing and men’s sugaring as a professional service and DO NOT sexualize it.

It is very rare to find a GREAT professional waxer or sugarist SKILLED at male Brazilians. Once you find such a diamond, it is in your best interest to take precaution and be respectful. Otherwise you risk being fired as a client or reported to authorities. All services at Bodyzilian Wax are rendered professionally.

**REMEMBER:** No service should ever be confused with anything sexual or sensual.

We thank you for respecting our professional boundaries.
